NATURAL STONE
is the ultimate exponent of
quality, nobility & luxury

The Decoration of a space should have the same, or even more, relief and concern than the architecture of the space itself.

In this sense, the *Natural Stone*, presents itself, today, as a material of paramount importance in the design of furniture and decoration pieces.

PEDRAS byannopei collaborates with internationally renowned brands, while creating and producing its own pieces, where *Natural Stone* always has the status of a "star", providing the touch of exuberance needed in high quality pieces.

PEDRA NATURAL
é o expoente máximo de
qualidade, nobreza e luxo

A Decoração de um espaço deverá ter o mesmo ou, até, mais relevo e preocupação que a arquitetura do próprio espaço.

Neste sentido, a Pedra Natural apresenta-se, hoje, como um material de suma importância na concepção de peças de mobiliário e decoração.

A **PEDRAS byannopei** colabora com marcas de renome internacional, enquanto cria e produz também as suas próprias peças, onde a Pedra Natural tem, sempre, o estatuto de "estrela", proporcionando o toque de exuberância necessário nas peças de alta qualidade.
